

COVID-19 Winter Protocols – updated January 10, 2022

Status	Vaccinated	Symptoms?	Required Steps	Back in Programming
Test Positive for COVID-19	Fully Vaccinated	Asymptomatic	Quarantine for at least 6 days	Tested negative after 6 days & still no symptoms can return to programming on day 7
	Fully Vaccinated	Exhibiting Symptoms	Quarantine for at least 6 days	Negative antigen test after 6 days, symptom free for at least 24 hours, can return to programming on day 7
	Not Vaccinated	Asymptomatic or Exhibiting symptoms	Quarantine for at least 6 days	Must quarantine for 6 days, PCR test shows negative results, and be symptom free for more than 24 hours
Close Contact	Fully Vaccinated*	Asymptomatic	Recommend testing	Can remain in programs as long as asymptomatic and testing negative
	Fully Vaccinated*	Exhibiting Symptoms	Test and quarantine until receipt of a negative test result and symptom free for at least 24 hours.	Can return to programs with proof of negative test and symptom free for at least 24 hours
	Not Vaccinated	Asymptomatic or Exhibiting symptoms	Test and quarantine at least 6 days	Can return to programs after 6 days, no symptoms, and proof of negative PCR test

**If you are 6 months out from vaccination (or 2 months from J&J vaccine) and have not received a booster and are considered a close contact, please follow the protocol for an unvaccinated person.*
